

# Chemical Lists

SDSs, TRI, Tier II, SARA Title III, RQs, PELs ...

## BLR Chemical Lists

The best chemical management resource for regulatory reporting

### Got chemicals?

**BLR Chemical Lists** provides real time updates to every important regulatory list you need to maintain your environmental, health, and safety reporting of chemicals.

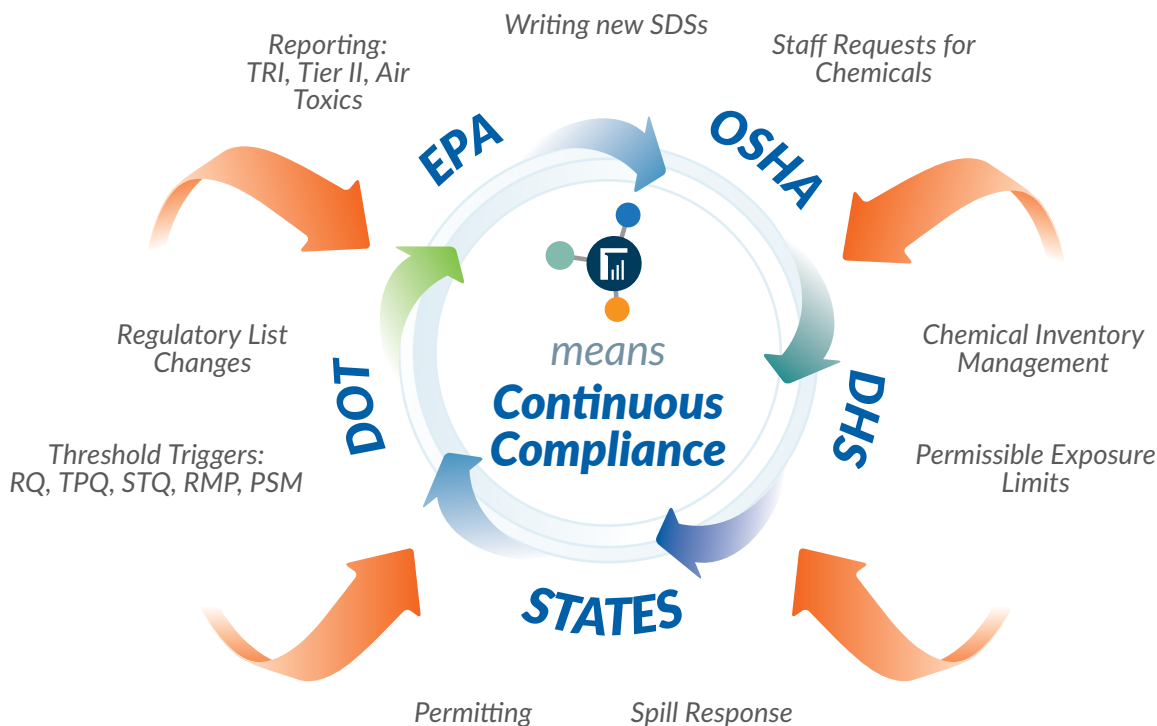

Whether it is Tier II reports, TRI reports, SARA Title III, reportable quantities (RQs) for spills, permissible exposure limits (PELs), or carcinogens, environmental, health, and safety, professionals can use the powerful search capabilities to search for more than 115,000 chemicals by Chemical Abstracts Service number (CAS#) or product name to quickly and easily find the lists needed to determine the regulatory burden of the products on-site or that they are considering bringing into the facility.

### Make chemicals?

**BLR Chemical Lists** gets you access to every important regulatory list you need to craft new safety data sheets (SDSs) for the chemicals you manufacture.

Regulatory compliance and research professionals can search more than 115,000 chemicals by CAS# or product name to quickly and easily find what the lists needed to convert those old material safety data sheets into the new SDS format.

# Chemicals Management by Manufacturers, Distributors, Users and Storehouses

You'll never need to look anywhere else because BLR Chemical Lists has all the EPA, DOT, OSHA, DHS, and STATE environmental regulatory lists you need in the Cloud for 24/7 access.

Product features include:

- A searchable database of more than 115,000 chemicals
- Search capabilities for both CAS# and product/chemical name
- A browsable database of chemical lists
- Regulatory guidance—understand what these lists mean and what you have to do
- List information is updated in real time

## BLR Chemical Lists takes the pain out of...

- Understanding hazardous chemical inventory and release reporting requirements
- Determining the regulatory burden of prospective chemicals/products
- Specialty chemicals
- Writing SDSs
